

Construction Notice

Westmont of Milpitas | 1620 S. Main St. | Construction Update 5/14/20

About the Project

Westmont of Milpitas is a 199-unit Assisted Living facility, consisting of 171 Assisted Living units and 28 Memory Care units. The project sits on 2 acres and will be 4 stories tall with one level of underground parking. The project amenities include three large courtyards, an indoor pool, exercise/therapy facilities, theater, commercial kitchen and dining, activity center, salon and library.

Scheduled completion date is July 2020.

Scheduled Work:

Dates: 5/14/20–6/14/20

Despite challenges due to the COVID-19 pandemic, Westmont of Milpitas saw great progress in the month April. The retaining wall on the south property line has been completed and the wooden portion of the fence has made great progress. Work is now able to continue on Main Street with tree wells in progress as well as signal pole foundations. On the interior, we have received carpet, wall coverings, ceiling tiles and finish trim for the corridors and in the commercial kitchen, the walk-in cooler and freezer are completely installed with the remaining kitchen equipment installation underway. Common areas are making great strides and we are excited to turn this building over to the operator in the next several months.

Planned Street Interruptions

The sidewalk on the east side of Main Street will be closed and signage will be posted. There will continue to be periodic traffic delays on South Main Street from 9am to 5pm, Monday through Friday due to street work for offsite utilities including street lights. For any issues, please call (669) 207-9975.

Safety:

We apologize for any inconveniences throughout the construction process. The safety of all employees, neighbors and the general public is our number one priority. Please be aware of changing conditions in the public right of way as sidewalk and street conditions are ever changing. Heavy equipment is entering and exiting the jobsite regularly. Please be aware of your surroundings and help us keep this project safe and free of injury. Thank you.
