Hours of Operation

Monday through Friday

7:00am—8:00pm

Saturdays

9:00am—6:00pm

About the Project

Phase III of the Google Campus near downtown Kirkland will be a LEED V4 Gold Certified office building including approximately 135,000 square feet with two and a half levels of underground parking. This project is a continuation of the existing Google Campus, which contains nearly 400,000 square feet of additional office space and amenities to include a park that separates Phase I and II. As a part of the Phase III project, the park will be extended up to 6th St. S. There will also be a large roof deck with views of Lake Washington and the Olympic Mountains.

Scheduled Work:

Dates: 10/8/20—10/21/20

Excavation will continue for the next few weeks and you can expect to see heavy truck traffic entering and exiting the site and long 6th Street S. as soil is excavated and hauled offsite. The shoring subcontractor will continue with place reinforcing, spraying shotcrete and installing soil nails for shoring walls as excavation continues downward.

Planned Street Interruptions:

During work hours, expect to see sidewalk closures and bike lane closures throughout the coming weeks along the west edge of 6th St. S. due to excavated soil leaving the site. Please follow all posted traffic control signs when this occurs. Flaggers may be stationed on 6th St. S. to allow trucks to safely exit the site. For any questions, please call (425) 417-5238.

Safety:

We apologize for any inconveniences throughout the construction process. The safety of all employees, neighbors and the general public is our number one priority. Please be aware of changing conditions in the public right of way as sidewalk and street conditions are ever changing. Heavy equipment is entering and exiting the jobsite regularly. Please be aware of your surroundings and help us keep this project safe and free of injury. Thank you.
